

The Frontenac Arch Biosphere invites creative individuals to add their information to an inventory of artists or arts-involved people within the Biosphere region.

Local artists and interested parties have been involved in preliminary discussions on creating a regional Biosphere Arts group with the conclusion that there are many benefits to a biosphere-wide initiative. Our distinctive landscape gives rise to a unique artistic voice. The economic potential of arts-related activities and cultural destination tourism needs to be tapped into. A FAB Arts collaborative on activities will improve communication within the arts community, reach a wider general audience and build partnerships across councils, clubs and guilds. Overall there is a sense that we can be stronger if we work together.

Why join the FAB Arts Inventory?

The inventory will help us to understand who is arts-involved in our region and what types of artistic activities are being pursued. Initially the inventory will be used to build a data base for communication purposes and to inform early research on the size and needs of our regional arts community. Eventually, the data base will be put online and linked to interactive maps and trail directories of the region- **but not without your permission!**

The website will be used as a tool for both tourists and residents alike. There is no fee and your business will be included in the Local Artists/Artisans section of our website once the project is closer to completion.

FAB Arts Inventory Questions

For more information on the Frontenac Arch Biosphere please visit www.fabr.ca. If you would like to be listed, please **complete the questions on this form, and email them to Tina at arts@fabr.ca, you can also email any questions.**
